Reviews

Without doubt, this is actually the best job by any publisher. It is written in basic phrases instead of difficult to understand. You will like the way the author publishes this publication.

Rawat Publications, 2010. Hardcover. Book Condition: New. Self-help Groups, a means of reaching rural women with savings and credit services, have taken off dramatically in India, where an estimated 25 million women are members. Their benefits are social as well as economic: these groups encourage women to become active in village affairs, or to take action against domestic violence, the dowry system, or the lack of schools. But some questions remain. How effective and transparent are the groups in managing their finances? Are the groups sustainable? Do the poorest benefit? What does it take for self-help groups to mobilize for social action? How effective are such actions? For the first time, detailed field research probes beneath the surface of India's world-renowned Self-help Group movement to explore both social and financial performance. Microfinance Self-help Groups in India: Living Up to Their Promise? reveals that whilst there are important achievements, especially on the social side, without more strategic attention and more resources these are unlikely to be sustainable. Essential reading for those studying and practising microfinance, and for bankers and policymakers considering banking for the poor. Printed Pages: 186.
