Brand New Book ***** Print on Demand *****.Excerpt from *Studies of Plant Life: A Series of Exercises for the Study of Plants* This small volume has been prepared as the result of a real necessity for a more careful study of plants and their life activities. During a number of years of experience as instructors of Botany in the Chicago secondary schools, with desirable classes, good laboratories, and ample equipment, genuine progress ought to be expected in the study of plant life. The work herein indicated represents the results of such experience up to the present time. As to how well it may succeed in its purpose remains for those who use the book to demonstrate, but the hope is expressed that it will be found to meet all the exacting requirements of to-day reasonably well. Few sciences have undergone such marked change in nomenclature and interpretation as has the subject of Botany. In this series of studies the purpose is to acquaint the student with plants as living things, potent factors for accomplishing certain great and important results. It is not so much what the plant - is, as what it does, that incites to investigation, and the details of structure are but used as a sure foundation upon which to gather and work out greater problems of function and relationship. The life relations and the influence of environment are to be prominently studied, also the influence of plants on each other, on animals, the soil, water, and the atmosphere. With this kind of study in view, the Life Problem questions have been included. These questions are not meant to be exhaustive. Similar questions should be added by both the instructor and pupil....
