Considerations for the Maneuver Commander: Could the Emergence of Uav s Spell the Demise of the Army s Rah-66 Comanche in the Armed Reconnaissance Role? (Paperback)

By U S Army Command and General Staff Coll, U S Army Command and General Staff Col

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The U.S. Army finds itself at a crossroad in the development and fielding of both unmanned aerial vehicles (UAVs) and the RAH-66 Comanche helicopter to fulfill the armed reconnaissance role for its future Objective Force (OF). Ever-increasing UAV capabilities, especially the ability to arm these platforms with Hellfire missiles, is forcing a blending of roles that were once solely the domain of manned platforms. This work attempts to answer the question posed above by using the OF characteristics of survivability, lethality, and responsiveness and comparing the effectiveness and efficiency of the Army s Class IV UAV systems (Hunter TUAV, Shadow 200, the Extended Range Multi-Purpose (ERMP), the Hummingbird 160 UCAR, and the Air Force s Predator A and B) against similar capabilities found in the Comanche. The analysis also highlights what the maneuver commander should consider in employing these future combat systems. The author concludes, based on the above criteria, that future UAV capabilities (up to the 2009 year timeframe) should not preclude the need for the Army to field the Comanche.

Reviews

These kinds of ebook is the perfect publication offered. It is among the most incredible publication i have go through. You will not feel monotony at whenever you want of your time (that's what catalogues are for concerning if you check with me).
