THE CALCULUS DIARIES: HOW MATH CAN HELP YOU LOSE WEIGHT, WIN IN VEGAS, AND SURVIVE A ZOMBIE APOCALYPSE

Penguin Books, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "The Calculus Diaries is a great primer for anyone who needs to get over their heebie-jeebies about an upcoming calculus class, or for anyone who's ever wondered how calculus fits into everyday life and wants to be entertained, too!" -Danica McKellar, New York Times bestselling author of Math Doesn't Suck and Hot X: Algebra Exposed "Zombies? Surfing? Gambling? Nobody told me calculus could be like this. To my twelfth-grade math teacher: I demand a do-over!" -Carl Zimmer, author of Parasite Rex and The Tangled Bank: An Introduction to Evolution "Back in the day, when I was close to flunking out of calculus class because I couldn't understand why it was worth my valuable time to actually understand it, I needed someone like Jennifer Ouellette to gently explain how I wrong I was. She's like every English major's dream math teacher: funny, smart, infected with communicable enthusiasm, and she can rock a Buffy reference. In this book, she hastens the day when more people are familiar with an integral function than with Justin Bieber." -Peter Sagal, host, NPR's "Wait, Wait Don't Tell Me," and author of The Book of Vice "In this wonderful and compulsively readable book, Jennifer Ouellette finds the signature of mathematics -- and especially calculus, of course -- in the most unexpected places, the gorgeously lunatic architecture of Spain's Antonio Gaudi, the shimmering arc of waves on a beach. Just following her on the journey is the half the fun. But the other half is learning about the natural beauty and elegance of calculations. Ouellette's ever clear and always stimulating voice is a perfect match to the subject - and The Calculus Diaries is a tour de force." -Deborah Blum, author of The Poisoner's Handbook:...
