Excerpt: .without very clearly understanding what Annie wanted with him. What is this? That is ice. So Mary said, and I knew it without being told. But I want to know how it is that there can be any ice in such a warm noom as mine is? That s what I don t understand. Very well, then. In the first place, do you know what ice is and how it is formed? Annie was just about to answer Yes, but she stopped to think before she had got the word out, and she was forced to own to herself that she did not know at all. I can guess your answer, said Paul, with a smile. You do not know. Annie lowered her eyes. Well, I ll explain to you some other time. Ifl stop to do it now I may be late for business. Oh, no! cried Annie. Tell me now. I may not think of it another time. Please tell me now. Paul looked at his watch, and probably saw that he had still some little time which he might devote to his sister, for he said, -- When a liquid body loses its heat it ends by passing into the solid state. That is one of the laws of nature. Therefore, when water loses its heat it passes from the liquid into the solid state; in other words, it becomes ice. Although Annie listened very carefully and tried her best to...
