

Bioinformatics (biological institutions of higher education teaching specialty series)

Filesize: 9.62 MB

Reviews

Completely essential read ebook. It is among the most awesome book i actually have read. I am very happy to explain how this is basically the greatest book i actually have read in my individual existence and might be he best pdf for possibly.

(Prof. Alexandro Runolfsson)

BIOINFORMATICS (BIOLOGICAL INSTITUTIONS OF HIGHER EDUCATION TEACHING SPECIALTY SERIES)

To read **Bioinformatics (biological institutions of higher education teaching specialty series)** eBook, remember to access the button under and save the ebook or get access to additional information that are related to BIOINFORMATICS (BIOLOGICAL INSTITUTIONS OF HIGHER EDUCATION TEACHING SPECIALTY SERIES) book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 319 Publisher: Zhejiang University Pub. Date :2011-09-01 version 1. Bioinformatics is an emerging cross-discipline. which combines biology. computer science and mathematics knowledge. known as the 21st century. leading the development of biological science disciplines. By the Yezai Hong editor of the Bioinformatics at home and abroad briefly introduced the current development of bioinformatics and bioinformatics analysis of the latest trends in research methods. describes the basics of bioinformatics and sophisticated technical methods (sequence alignment. genetic characteristics analysis. primer design. protein structure prediction. etc.) to explain the biological information database and information related to the analysis of molecular biological techniques. including structural analysis of biological information database and analog building technology. introduces the computer-aided drug design techniques and chemometrics method. supplemented by examples. and in each chapter lists the relevant analytical methods. software. tools and knowledge of the important free websites as knowledge development. for reference. Bioinformatics Bioinformatics as a non-professional undergraduate students in bioinformatics curriculum materials. but also as biology. agriculture. workers in the field of drug design and other reference books. Contents: Chapter 1 Overview 1.1 Bioinformatics History of Bioinformatics Bioinformatics Research 1.2 1.3 Outlook Chapter 2 content of bioinformatics biology taxonomic 2.1 2.3 2.2 model organisms and the structure of biological macromolecules 2.4 molecular biology central dogma 2.5 genome and the genome structure of Chapter 3. the database of the basic knowledge and biological information database modeling to build 3.1 Database System Overview 3.2 Data Management technology 3.3 Description and data model 3.4 conceptual data model 3.5 common logical data database system structure model 3.6 3.7 3.8 database management system building simulation databases of biological information in Chapter 4 biological information database and network infrastructure...
